Vision

We are an ambitious and independent family company as well as a leading CNC machine and tools supplier and distributor in 8 countries. Our ambition is to continue having a significant role in our growing sales markets in Eastern Europe and continue providing world class service to our customers and business partners.

All our employees and Senior Management are fully committed to our business principles of Quality, Unity and Integrity. Continuing to hold 100% shareholding by our family and retaining such economic independence and ambitious organic growth is our top priority.

We are determined to be geographically close to our customers and we have plans for further expansion and new office and service centre openings. We are guided by fairness, loyalty and trust in everything we do.

Our solid business model will enable continued growth of established expertise and extensive network of customers and suppliers, resulting in complete and wide-ranging technical and servicing support to all our local and international clients.
