DETAILS!

Used and in good condition! Here you may find a used cylindrical grinding machine or a demonstration model that fits your needs perfectly and has in addition to that, an attractive price!

Below you can find a selection of used /stock /demonstration machines:

Universal cylindrical grinding machine S21:

- Year of manufacture: 2003
- Distance between centers 400mm
- Centre height 125mm
- Automatic high-resolution B axis <1''
- 2x external grinding (T1+T2)
- 1x internal grinding (T3)
- Universal workhead MK4
- Tailstock MK3
- Control system 16iTA

Universal cylindrical grinding machine S21:

- Year of manufacture: 2018
- Distance between centers 400mm
- Centre height 125mm
- Manual B axis 2.5°
- 1x external grinding (T1)
- Chuck workhead MK4
- Tailstock MK3
- Control system 31i-A
- StuderWIN
- HSM capable

Production cylindrical grinding machine S36:

- Year of manufacture: 1998
- Distance between centers 1000mm
- Grinding length 500mm
- Centre height 175mm
- 1x internal grinding (T2)
- Workhead MK5
- Tailstock MK3
- Control system 16TB

Radius internal cylindrical grinding machine S131:

- Year of manufacture: 2020
- Max. workpiece length 300mm
- Swing diameter above table 300mm
- 1x external grinding (T1) 250mm
- 3x internal grinding (T2, T3, T4)
- T2: 42'000-60'000rpm
- T3: 24'000-42'000rpm
- T4: 90'000rpm
- Grinding spindle turret with direct drive and resolution 0.00005°
- B axis with direct drive
- Control system 31i-B, StuderSIM
